AMR Cleaning Robot

S9 TiTan – Robotic Sweeper

for Indoor applications

Technical specifications

Cleaning mode	AMR Autonomous mobile robot with side and central brushes and vacuum
Application	Indoor
Dimensions (l x w x h)	85 x 60 x 52 cm
Weight	65 kg
Sweeping width	90 cm
Productivity	1000-2500 m^2/h
Battery runtime	4-8 hours
Battery capacity	50 Ah (LiFePo4 Lithium iron phosphate)
Battery charging time	About 3 hours
Obstacle detection system	1 x 3D Lidar 32 lines 4 x 3D camera
Navigation sensor	Lidar 3D 32 lines
Garbage container	45 L
Auto charging	Optional with workstation
Control mode	Automatic / Manual with App (iOS and Android)
Task report	App (iOS and Android)
